Relevant Information

RentAssured endeavors to always obtain rent on time. Where, for any reasons rent is late from the tenant, Rent Assured will immediately take steps necessary and the rent will be paid to the investor once obtained from the tenant.

Investors are responsible for insuring the property.

RentAssured requires 3 sets of keys for the premises. 2 sets are given to the tenant, once bond and rent has been secured and the tenant has passed our application and reference procedure, the other set is kept locked up in RentAssured's office for emergencies and inspections. All keys are coded for security.

Once a property is tenanted, 48 hours notice is legally required to enter the premises, except in the case of an emergency.

You can still inspect the outside of the property; however we would advise you to respect the customers (tenants) privacy.
